

Foreign Minister of Quebec Expresses Satisfaction with Results of Cuba Trip

Havana, September 16 (RHC)-- Christine St-Pierre, Minister of International Relations and La Francophonie of the Canadian province of Quebec expressed satisfaction with the results of the trip to Cuba by Quebec Premier Philippe Couillard.

In statements to Granma newspaper, the Canadian diplomat said a new stage has now begun in bilateral relations. She explained that during the visit, officials from Cuba and Quebec identified new areas for cooperation and mentioned the agro-food industry, science and culture.

Minister St-Pierre stressed that the persistence of the U.S. blockade of Cuba will not prevent Canada from expanding its ties with the Caribbean state, and urged the U.S. to lift that policy.
