

More Than 50 Countries Import Cuban Pharmaceutical Products

Havana, January 31 (RHC) -- Cuba's exports of pharmaceutical and biotechnological products reach more than 50 countries, according to the Granma newspaper.

Executives from the Ministry of Science, Technology and the Environment also said that in 2013, the country produced 580 of the 880 drugs used in Cuba's national health care network. The figure also includes eight of the thirteen vaccines of the basic immunization program.
