FBI to investigate Florida Governor Ron DeSantis for corruption and wrongdoing

Miami, March 6 (RHC)-- In the U.S., top Florida Democrats have called on the acting U.S. attorney general and the FBI to investigate Republican Governor Ron DeSantis for corruption and wrongdoing

after reports that most residents over 65 in a wealthy Key Largo community had received vaccines by mid-January.

Seventeen residents donated \$5,000 each to DeSantis's political committee prior to the vaccinations; the former Republican governor of Illinois, Bruce Rauner, also a resident of the community, increased his contribution to \$250,000.

This news comes amid accusations that DeSantis prioritized wealthy communities that were connected to political donors for vaccination "pop-up" sites.
