Amid soaring profits, Moderna and Pfizer to raise COVID-19 vaccine prices

New York, August 5 (RHC)-- The producers of some of the world's most effective COVID-19 vaccines continue to raise prices on the life-saving inoculations, with Pfizer and Moderna set to charge the

European Union more than \$23 and \$25 per dose, respectively.

A recent study by the People's Vaccine Alliance found Pfizer-BioNTech and Moderna are charging governments as much as \$41 billion above the estimated cost of production.
