Stockholm, March 12 (RHC)-- In Sweden, police have forcibly removed climate activist Greta Thunberg and dozens of other environmental protesters who were blocking the entrance to the Swedish parliament for a second day.

Greta Thunberg spoke at the action: “Right now we are a group of young people who are blocking entrances to the Swedish parliament, the Riksdag, to protest against the ongoing destruction of our life-supporting systems and of people already been killed as a result of the climate crisis. And that needs to come to an end. We have had enough.”
