### **Judo**

The traditional powerhouse in judo, Cuba will attempt to confirm its dominance in the game by winning the largest number of possible titles between both sexes.

According to the president of the Cuban Judo Federation, Rafael Manso, the purpose is to achieve 13 gold and 5 bronze medals out of the 18 possible as the teams are very strong with our main athletes in both sexes, so we hope to dominate the medal standings, he said.

In this regard, he pointed out that the bronze medals were determined by taking into account the quality of the Cuban judokas and the main rivals, and in some cases instead of bronze, it might be silver, depending on the draw.

In this regard, he complained that in the recent *Panamerican Sports Festival*, based in Mexico like the Games, Cubans were almost always pitted first against the Brazilians, who are the other powerful force in the Panamerican arena.

As usual in this kind of competition, team competition will also occur, and Cuba is determined to sweep the prizes in both genders; in any case, Cuba is the team to beat in Veracruz, and all the judokas coming from other countries to compete, know it, concluded the official.
