Ramallah, April 22 (RHC)-- In Gaza, Israeli forces have killed at least 39 Palestinians in the past day as its relentless and indiscriminate assault continues. The displacement camp of al-Mawasi near Khan Younis, a supposed "safe zone," has seen heavy casualties in recent days.

Meanwhile, the Palestine Red Crescent Society has condemned an internal probe by the Israeli military into the killing last month of 15 first responders in Gaza by Israeli fighters.

Israel blamed a so-called operational misunderstanding for the mass shooting and burying of the aid workers.

The Palestine Red Crescent Society is calling for a United Nations-led independent investigation into the apparent war crime.
