Gaza City, April 30 (RHC)-- Palestinian health officials say Israeli attacks have killed at least 39 people across the Gaza Strip over the past 24 hours. That includes three massive strikes on residential buildings in the Nuseirat refugee camp that survivors described as feeling like an “earthquake.”

Overnight, Israel continued attacks on tents and other shelters for displaced Palestinian civilians in Khan Younis and al-Mawasi. Survivors say bodies of their loved ones were left unrecognizable by the airstrikes in an area Israel had designated as a so-called safe zone.

One area resident, Umm Islam Ashour, told reports: "Do you see the rockets that fell on us and on the children at home? They were sleeping. We were sleeping deeply, only to get us out of the house like that. And we started running with the children at midnight. It is unfair, unfair, world."
