A large, thick gray 'X' is drawn across the entire image area, indicating that the image is missing or has been removed. The 'X' is composed of two diagonal lines that intersect in the center of the image frame.

Washington, May 31 (RHC)-- U.S. President Donald Trump's Environmental Protection Agency has drafted a plan to completely eliminate limits on greenhouse gas emissions from coal- and gas-fired power plants.

That's according to internal agency documents seen by The New York Times, which reports the EPA has determined emissions of carbon dioxide, methane and other greenhouse gases "do not contribute significantly to dangerous pollution."
