

U.S. Approves \$11.25 Billion Sale of Warships to Saudi Arabia

Washington, October 23 (RHC)-- The Barack Obama administration has approved an \$11.25 billion deal to sell four advanced, Lockheed Martin-made warships to Saudi Arabia.

The move comes as Amnesty International has called on the United States to halt arms transfers to Saudi Arabia or risk being complicit in war crimes in Yemen, where Saudi Arabia is waging a U.S.-backed campaign against Houthi rebels.
