

UNASUR President Presents President Nicolás Maduro with Report on December Elections

Caracas, February 11 (RHC)-- Ernesto Samper, General Secretary of the Union of South American Nations (UNASUR) has presented Venezuelan President Nicolás Maduro with the organization's report on the December 6th elections in the South American country.

The Venezuelan government noted in a news report that participants in the meeting, held Wednesday at Miraflores presidential palace, included former Dominican President Leonel Fernández, who served as head of the UNASUR observation mission, and electoral experts from some Latin American nations.

The report indicates that despite repeated calls for violence from the opposition, UNASUR experts described the electoral process as very positive and transparent as stipulated by international law.
