

Boko Haram Terrorists Fatally Shoot 18 Women in Nigeria

Lagos, June 18 (RHC)-- Takfiri Boko Haram terrorists have shot and killed at least 18 women when they stormed a funeral in a village in Nigeria's troubled northeastern state of Adamawa.

Witnesses and local government officials said the attack was carried out in the village of Kuda near the Sambisa forest, where Boko Haram militants hide in far-flung camps to avoid the Nigerian military. According to eye-witnesses, at least 10 injured people were rushed to a health facility in the nearby town of Gulak.

An estimated 20,000 people have been killed and more than two million others made homeless since the beginning of the bloody Boko Haram militancy in Nigeria in 2009.
